

Niara (Nia) Mamontova | Product Manager, Product Owner

Irvine, CA (open to relocation) | niara.mamontova@gmail.com | +1 (814) 852-8918 | linkedin.com/in/niaramamontova

SUMMARY

Technical Product Manager and Product Owner with 15+ years of experience leading complex, enterprise-grade digital platforms across fintech, SaaS, and global e-commerce environments. Delivered large-scale modernization initiatives in identity, pricing, subscription billing, quote-to-cash workflows, AI-driven underwriting, and investment servicing systems. Operates at the intersection of architecture, compliance, and business strategy, driving multi-year roadmaps, executive alignment, and KPI-backed product outcomes.

Key achievements:

- **Namecheap (~\$300M global SaaS platform):** Led IAM and payments roadmap supporting 11M+ users; improved authentication reliability by 30%, reduced payment failure rates by 18%, and strengthened PCI compliance across high-volume global checkout systems.
- **Online Residential (\$1.2M modernization):** Built and launched ERP + CRM platform integrating subscription pricing, billing, payments (Stripe, PayPal, ACH), analytics, and multi-tenant financial workflows; improved ROI by 25%.
- **DXC Technology (Capital Group):** Directed \$1M roadmap for SEC/FINRA-regulated investment servicing platforms, leading AWS migration to improve scalability, operational transparency, and audit readiness.

CORE SKILLS

- **Product Ownership:** Vision, roadmaps, MVP definition, backlog ownership, product scaling; pricing models, subscription pricing, quote-to-cash workflows, FinTech, SaaS, banking, AI decisioning, onboarding, KYC/KYB/KYM, loan processing, CRM, payments, regulated systems.
- **Tech Expertise:** API integrations (Stripe, PayPal, Experian), Salesforce, AWS-based platforms, pricing and decisioning logic, subscription billing systems, data workflows, ERP/CRM modernization, multi-tenant SaaS.
- **Delivery:** Scrum, SAFe, release management, UAT leadership, CI/CD coordination, risk management, KPI dashboards, executive alignment, cross-functional collaboration.

EXPERIENCE

Plat.AI – Senior Business Analyst

Los Angeles, CA | Jun 2025 – Nov 2025

FinTech • AI Underwriting • Credit Decisioning • Regulatory Compliance

- Defined product requirements and decisioning workflows for an AI-driven underwriting platform, aligning risk models with scalable system logic.
- Led API integrations for a multi-step AI underwriting platform in a regulated lending environment, coordinating data exchanges with external financial institutions and credit bureaus; managed partner communications and incident resolution to ensure stable, automated decision workflows.

DXC Technology (Project: Capital Group) – Product Owner

Irvine, CA | Jun 2024 – Jun 2025

Financial Services • Investment Servicing • CRM Platforms • Cloud Systems

- Owned product roadmap for SEC/FINRA-regulated servicing platforms, aligning compliance requirements with scalable cloud architecture.
- Led AWS migration of core servicing systems, improving system resilience and strengthening audit transparency in a regulated environment.
- Built KPI dashboards enabling leadership visibility into operational performance and risk exposure.

On-line Residential – Product Manager

New York, NY | May 2019 – Apr 2024

B2B/B2C SaaS • ERP/CRM • Multi-Tenant Billing & Payments

- Defined product vision and roadmap; built a CRM platform from scratch (A/B testing, hypothesis validation) and led ERP migration from legacy to modern SaaS architecture, owning the lifecycle from discovery through GTM and production launch across web and mobile applications.
- Designed subscription pricing models and billing workflows for a multi-tenant SaaS CRM platform serving real estate agents, enabling tiered pricing plans, automated billing, and scalable revenue operations.
- Defined pricing tiers, subscription plans, and payment automation supporting the **quote-to-cash lifecycle**, integrating Stripe, PayPal, and ACH payment flows.
- Led GTM readiness, UAT strategy, and stakeholder demos for customer-facing releases.

Namecheap – Product Owner

Phoenix, AZ | Nov 2016 - May 2019

Global SaaS & E-commerce • Identity • Payments • Security

- Owned modernization strategy for user management, pricing configuration, and payment services, supporting subscription renewals, promotions, and add-on product pricing across a global SaaS platform.
- Drove redesign of authentication and account management UI, improving login stability and reducing support tickets related to access issues.
- Delivered pricing and checkout enhancements including subscription renewals, add-on configuration, and promotions while maintaining PCI-compliant payment processing for high-volume global transactions.
- Led incident governance and reliability initiatives using Kibana monitoring, improving SLA adherence and reducing production downtime.
- Drove PI planning and quarterly roadmap alignment across engineering, security, and business stakeholders; presented roadmap updates to executive leadership.

Raiffeisen Bank International – Senior Business Analyst

London, UK | Feb 2013 – Nov 2016

Banking • Consumer Lending • Credit Products • Regulatory Platforms

- Re-engineered credit card and car-loan lifecycle processes using IBM BPM (BPMN-based modeling), enabling configurable underwriting and compliance workflows.
- Externalized business rules from legacy systems, reducing engineering dependency for policy updates.
- Partnered with Risk and Operations to modernize lending onboarding and servicing flows.
- Improved regulatory traceability across credit lifecycle systems.

PREVIOUS EXPERIENCE

NetFusion (Startup) – Product Manager

New York, NY | Mar 2012 – Feb 2013

- Launched a CRM and e-commerce platform for U.S. beauty businesses, defining MVP scope and shipping web, iOS, and Android applications.

TEAM International (Project: PLS Logistics) – Senior Business Analyst

Ukraine | Mar 2011 – Feb 2012

- Delivered business and systems analysis for a logistics ERP platform integrating B2B shipment tracking and partner workflows and API integrations.

SoftServe – Business Analyst

United States, Europe | Mar 2009 – Feb 2011

- Led business analysis and requirements definition for banking platforms (VTB Bank Russia) and learning systems (Technovation LMS, USA), translating business needs into functional specifications for engineering teams.

Dr. Weigandt Software – Business System Analyst

Germany | Jul 2006 – Mar 2009

- Implemented Oracle Retail (RMS, RPM) solutions for international enterprise clients, supporting large-scale ERP modernization initiatives.
