SUMMARY

Seasoned Product Manager and Product Owner with 15+ years of experience leading complex, enterprise-grade digital platforms across fintech, SaaS, global e-commerce, and regulated financial environments. Delivered large-scale modernization initiatives in identity and account management, pricing, subscription billing, quote-to-cash workflows, AI-driven underwriting, and investment servicing systems. Operates at the intersection of architecture, compliance, and business strategy, driving multi-year roadmaps, executive alignment, and data-driven product outcomes using KPIs and A/B testing to improve user experience and business performance.

Key achievements:

- **Namecheap (~\$300M global SaaS platform):** Led modernization of user management, pricing, and payment services supporting 11M+ users; improved authentication reliability by 30%, reduced payment failure rates by 18%, and strengthened PCI compliance across high-volume global checkout systems; implemented A/B testing for checkout and authentication flows to improve conversion and reduce user friction.
- **On-line Residential (\$1.2M modernization):** Modernized ERP platform and built CRM platform from scratch, integrating subscription pricing, billing, payments (Stripe, PayPal, ACH), analytics, and multi-tenant financial workflows; improved ROI by 25%; defined and executed A/B tests on pricing models and user flows to optimize conversion and customer retention.
- **DXC Technology (Capital Group):** Owned \$1M roadmap for SEC/FINRA-regulated investment servicing platforms, leading AWS migration to improve scalability, operational transparency, and audit readiness.

CORE SKILLS

- **Product Ownership:** Product vision, roadmap development, MVP definition, backlog ownership, prioritization, product scaling, go-to-market readiness, stakeholder alignment, data-driven decision-making, A/B testing, experimentation.
- **Domain Expertise:** FinTech, SaaS, global e-commerce, banking, AI decisioning, onboarding, KYC/KYB/KYM, loan processing, CRM, identity, pricing, payments, subscription billing, quote-to-cash, regulated systems.
- **Technical Expertise:** API integrations (Stripe, PayPal, Experian), AWS-based platforms, Salesforce, pricing and decisioning logic, subscription billing systems, data workflows, ERP/CRM modernization, multi-tenant SaaS, cloud migration.
- **Delivery:** Scrum, SAgile, release management, UAT leadership, CI/CD coordination, incident governance, risk management, KPI dashboards, executive communication, cross-functional collaboration.

EXPERIENCE

Plat.AI – Senior Business Analyst

Los Angeles, CA | Jun 2025 – Nov 2025

FinTech • AI Underwriting • Credit Decisioning • Regulatory Compliance

- Defined product requirements and multi-step decisioning workflows for an AI-driven underwriting platform, translating risk models into scalable system logic.
- Led API integrations in a regulated lending environment, coordinating data exchanges with external financial institutions and credit bureaus; managed partner communication and incident resolution to stabilize automated decision workflows.

DXC Technology (Project: Capital Group) – Product Owner

Irvine, CA | Jun 2024 – Jun 2025

Financial Services • Investment Servicing • CRM Platforms • Cloud Systems

- Owned roadmap for SEC/FINRA-regulated investment servicing platforms, aligning compliance requirements with scalable cloud architecture.
- Led AWS migration of core servicing systems, improving resilience, scalability, and audit transparency in a regulated environment.
- Built KPI dashboards to provide leadership visibility into operational performance and risk exposure, enabling data-driven prioritization and decision-making..

On-line Residential – Product Manager

New York, NY | May 2019 – Apr 2024

B2B/B2C SaaS • ERP/CRM • Multi-Tenant Billing & Payments

- Defined product vision and roadmap for ERP and CRM modernization across web and mobile applications; owned delivery lifecycle from discovery through GTM and production launch.
- Modernized the ERP platform from legacy architecture to a scalable SaaS solution serving B2B/B2C workflows.
- Built the CRM platform from scratch, including product structure, workflows, and core business logic.
- Designed subscription pricing models, billing workflows, and payment automation supporting quote-to-cash lifecycle and scalable revenue operations.
- Integrated Stripe, PayPal, and ACH payment flows; led GTM readiness, UAT strategy, and stakeholder demos for customer-facing releases.
- Defined success metrics and conducted A/B testing on pricing, onboarding, and payment flows, improving conversion and customer retention.

Namecheap – Product Owner

Phoenix, AZ | Nov 2016 - May 2019

Global SaaS & E-commerce • Identity • Payments • Security

- Owned modernization strategy for user management, account management, pricing configuration, and payment services across a global SaaS platform.
- Led development of centralized account capabilities supporting authentication, profile, and access workflows across web and mobile applications.
- Drove redesign of authentication and account management experiences, improving login stability and reducing access-related support tickets.
- Implemented A/B testing for checkout and authentication flows, using user behavior data to optimize conversion and reduce friction.
- Delivered pricing and checkout enhancements including subscription renewals, promotions, and add-on product configuration while maintaining PCI-compliant payment processing.
- Led incident governance and reliability initiatives using Kibana monitoring, improving SLA adherence and reducing production downtime.
- Drove PI planning and quarterly roadmap alignment across engineering, security, and business stakeholders; presented roadmap updates to executive leadership.

Raiffeisen Bank International – Senior Business Analyst

London, UK | Feb 2013 – Nov 2016

Banking • Consumer Lending • Credit Products • Regulatory Platforms

- Re-engineered credit card and car-loan lifecycle processes using IBM BPM, enabling configurable underwriting and compliance workflows.
- Externalized business rules from legacy systems, reducing engineering dependency for policy updates.
- Partnered with Risk and Operations to modernize lending onboarding and servicing flows.
- Improved regulatory traceability across credit lifecycle systems.

PREVIOUS EXPERIENCE

NetFusion (Startup) – Product Manager

New York, NY | Mar 2012 – Feb 2013

- Launched a CRM and e-commerce platform for U.S. beauty businesses, defining MVP scope and delivering web, iOS, and Android applications.

TEAM International (Project: PLS Logistics) – Senior Business Analyst

Ukraine | Mar 2011 – Feb 2012

- Delivered business and systems analysis for a logistics ERP platform integrating B2B shipment tracking, partner workflows, and API integrations.

SoftServe – Business Analyst

United States, Europe | Mar 2009 – Feb 2011

- Led business analysis and requirements definition across banking (VTB factoring), learning platforms (Technovation LMS), and internal HR (HCM) systems, translating business needs into functional specifications and user stories for engineering teams.

Weigandt Consulting – Business System Analyst

Germany | Jul 2006 – Mar 2009

- Delivered Oracle Retail (RMS, RPM) implementations for international retail enterprise clients, supporting ERP modernization, pricing transformation, and large-scale systems integration initiatives.
