

Niara (Nia) Mamontova | Product Manager, Product Owner

Irvine, CA (relocation) | niara.mamontova@gmail.com | +1 (814) 852-8918 | [linkedin.com/in/niaramamontova](https://www.linkedin.com/in/niaramamontova) | niaramamontova-prdm.github.io/prdm/

SUMMARY

Product Manager / Product Owner with 10+ years of experience leading end-to-end delivery of enterprise platforms across fintech, SaaS, and e-commerce. Skilled in driving product strategy and execution, aligning cross-functional teams, and delivering scalable, data-driven solutions.

Key achievements:

- **Namecheap (~\$300M global SaaS platform):** Led modernization of user management, pricing, and payment services supporting 11M+ users; improved authentication reliability by 30%, reduced payment failure rates by 18%, and strengthened PCI compliance across high-volume global checkout systems; implemented A/B testing for checkout and authentication flows to improve conversion and reduce user friction.
- **On-line Residential (\$1.2M modernization):** Modernized ERP platform and built CRM platform from scratch, integrating subscription pricing, billing, payments (Stripe, PayPal, ACH), analytics, and multi-tenant financial workflows; improved ROI by 25%; defined and executed A/B tests on pricing models and user flows to optimize conversion and customer retention.

CORE SKILLS

- **Product Ownership:** Product vision, roadmap development, MVP definition, backlog ownership, prioritization, product scaling, go-to-market readiness, stakeholder alignment, data-driven decision-making, A/B testing, experimentation.
- **Domain Expertise:** FinTech, SaaS, global e-commerce, banking, AI decisioning, onboarding, KYC/KYB/KYM, loan processing, CRM, identity, pricing, payments, subscription billing, quote-to-cash, regulated systems.
- **Technical Expertise:** API integrations (Stripe, PayPal, Experian), Zendesk, Swagger, SQL, Python, AWS-based platforms, Salesforce, pricing and decisioning logic, subscription billing systems, data workflows, ERP/CRM modernization, multi-tenant SaaS, cloud migration, Mobile (iOS/Android) platforms.
- **Delivery:** Scrum, SAFe, release management, UAT leadership, Cross-team coordination, CI/CD coordination, incident governance, risk management, KPI dashboards, executive communication, cross-functional collaboration.

EXPERIENCE

Plat.AI – Senior Business Analyst, Scrum Master

Los Angeles, CA | Jun 2025 – Nov 2025

FinTech • AI Underwriting • Credit Decisioning • Regulatory Compliance

- Defined multi-step decisioning workflows for an AI-driven underwriting platform, translating risk models into scalable system logic -> enabling consistent automated approval and decline decisions across auto loan and mortgage products
- Led API integrations with financial institutions and credit bureaus (Experian), managing data exchange and incident resolution -> stabilizing automated decisioning workflows and reducing manual intervention
- Facilitated Agile ceremonies and managed Jira configuration, dependencies, and risk tracking -> improving team delivery predictability across distributed engineering and risk teams
- Built Power BI dashboards for leadership -> increasing visibility into delivery progress and decisioning performance

DXC Technology (Project: Capital Group) – Product Owner

Irvine, CA | 2024 – 2025

Financial Services • Investment Servicing • CRM Platforms • Cloud Systems

- Migrated legacy data storage to AWS, improving scalability, resilience, and audit transparency in a SEC/FINRA-regulated environment
- Led CRM migration (marketing, HR workflows) to Salesforce – as-is analysis, gap analysis, to-be design
- Built Tableau dashboards and KPI reporting for leadership visibility into delivery progress and production readiness
- Coordinated production incident resolution via ServiceNow, reducing system downtime
- Set up Agile environment from scratch – Jira, PI Planning, sprint planning, grooming, retrospectives
- Facilitated stakeholder demos and requirements sessions with architects and business stakeholders

On-line Residential – Product Manager

New York, NY | 2019 – 2024

B2B/B2C SaaS • ERP/CRM • Multi-Tenant Billing & Payments

- Modernized a legacy ERP platform (olr.com), reducing manual effort and improving operational efficiency
- Built a CRM from scratch (linecity.com) – web and mobile, including go-to-market execution and agent subscription flows
- Delivered key features across both platforms – AI search, reporting and analytics, IAM, payment integrations (Stripe, PayPal, ACH), and third-party APIs (Google Maps, Mailchimp, etc.)

- Owned product strategy – market analysis, roadmap, backlog, risk and dependency management, A/B testing, and Google Analytics for conversion and retention analysis
- Built Power BI dashboards, including KPI reporting for leadership
- Managed high-volume traffic during peak periods (e.g., Black Friday)
- Led cross-functional teams through end-to-end delivery – engineering, QA, and UX/UI
- Partnered with stakeholders on requirements, demos, and sign-off

Namecheap – Product Owner

Phoenix, AZ | Nov 2016 - May 2019

Global SaaS & E-commerce • Identity • Payments • Security

- Led two engineering teams – IAM/security (OAuth 2.0, 2FA, PenID) and checkout/payments, supporting 11M+ users globally
- Migrated IAM and payments areas from legacy to microservices – as-is analysis, gap analysis, to-be design, cross-module dependencies management
- Built mobile app from scratch (iOS and Android) for identity and commerce
- Integrated payment systems – PayPal, Visa, MasterCard, AmEx, Bitcoin
- Managed high volume traffic during peak periods, ensuring platform stability (Black Friday, etc.)
- Coordinated cross-functional dependencies and releases across teams
- Ran PI Planning with global stakeholder demos streamed via YouTube
- Partnered with customer support and UX/UI designers on platform improvements
- Production incident coordination and resolution

Raiffeisen Bank International – Senior Business Analyst

London, UK | Feb 2013 – Nov 2016

Banking • Consumer Lending • Credit Products • Regulatory Platforms

- Led end-to-end business analysis for modernization of credit card and auto loan processes, including requirements gathering and “as-is”/“to-be” process design.
- Re-engineered lifecycle processes to enable configurable underwriting and compliance workflows, translating requirements into functional specifications and executable solutions.
- Externalized business rules from legacy systems and partnered with Risk, Operations, engineering, and compliance to improve agility and regulatory traceability across the credit lifecycle.

PREVIOUS EXPERIENCE

Early product and business analysis experience across startups and enterprise systems.

- NetFusion (2011 - 2013) – Product Manager: Led delivery of a CRM and e-commerce platform leveraging Shopify, launching web and mobile applications (iOS/Android) and expanding client adoption.
- Iridescent / Technovation (2009 - 2011) – Business Analyst: Led end-to-end delivery of a web and mobile LMS, from requirements through production launch.
